

Latex Tutorial 4 (Tables) Examples

@-expressions

Andrew Roberts

19th September 2003

A common use of the @ specifier is to align scientific tables on the decimal place.

3.14159
16.2
123.456

Examples for altering horizontal spacing:

stuff	stuff
stuff	stuff

stuff	stuff
stuff	stuff

stuff	stuff
stuff	stuff

stuff	stuff
stuff	stuff
